

We recently added a telephone line and it is obvious that the previous owners of this number had not been placed on the do not call list. After 5:00 pm we probably receive 3-4 calls per day. I find it outrageous that I must now take the time to contact the DO NOT CALL Listing to add another phone number. Even more annoying is the fact that the solicitor is pre-recorded. This means that these companies do not even spend money to staff these. I think that they should not be allowed to do pre-recorded solicitation. If they had to bear the expense of staffing this, they would stop the solicitation. Having to stop what I am doing to answer the telephone to find that it is another recorded solicitation for something I would never purchase over the telephone is a waste of my time. WHY can't we get it stopped????
